HAVE ENTHUSIASTIC MEETING

Organization to be Known as "The Crittenden County Commercial Club" Elects Officers.

At an enthusiastic citizens' meeting, in up-stairs lobby of Post Office Building, in Marion, Kentucky, on Friday evening, March 3rd, 1916, a committee, composed of C. S. Nunn, Geo. M. Crider and T. H. Cochran, filed their report upon the proposition of organizing a commercial club, entitled "The Crittenden County Commercial Club," in which report the following named officers were recommended, for President, W. B. Yandell; for Vice President, T. H. Cochran; for Secretary, L. E. Guess; for Treasurer, R. F. Haynes, for Directors, O. S. Denny, J. F. Dodge, J. H. Orme, W. T. McConnell, Jno. A. Moore and W. D. Cannan, and upon motion which carried, said report was adopted and said officers as recommended were duly elected, to serve as such officers until the first Tuesday in February next, when or until their successors shall be elected.

An opportunity was then given for all those who desired so to do, to become members of the Commercial Club, thereupon the following named persons were enrolled as members of said Club viz: D. E. Gilliland, A. H. Reed, R. I. Nunn, J. C. Bourland, L. E. Guess, T. H. Cochran, Sam Gugenheim, W. R. Cruce, J. B. Wiggins, Creed A. Taylor, Geo. M. Crider, W. T. McConnell, C. C. Moore, J. G. Rochester, C. C. Taylor, J. Robert Bird, Walter McConnell, Jno. W. Wilson, J. F. Dodge, Aubrey Cannan, C. E. Mynes, W. E. Carnahan, O. S. Denny, W. H. Copher, W. B. Yandell, J. N. Boston, Geo. P. Roberts, T. C. Bennett, Isam Morse, J. W. Guess, Lawrence Mayes, C. S. Nunn, S. T. Dupuy, Jno. A. Moore, L. E. Crider, J. W. Blue, Jr., Clem B. Sullivan, J. A. Stevens, S. M. Jenkins, J. H. Orme and Jesse Olive.

The following named committees were appointed by the Chair man, viz: Committee on Public Schools; E. Jeffrey Travis, J. W. Blue, Jr., A. C. Moore, W. T. McConnell and O. S. Denny.

Committee on Farm Relations & Improvements: J. Robert Bird,

J. N. Boston, Jno. A. Moore, W. R. Cruce and J. A. Stevens.

Committee on Public Roads: C. S. Nunn, J. H. Orme, T. H. Cochran, Geo. M. Crider and J. W. Wilson.

Committee on City Welfare: J. G. Rochester, Geo. P. Roberts, Walter McConnell, C. C. Taylor and W. H. Copher.

Committee on Entertainment: W. E. Carnahan, Jesse Olive, A. H. Reed, Clarence Mayes and R. I. Nunn.

Committee on Publicity: Geo. M. Crider, J. C. Bourland, S. M. Jenkins, Sam Gugenheim and T. C. Bennett.

Committee on Membership: L. E. Crider, S. T. Dupuy, C. A. Taylor, D. E. Gilliland and J. F. Dodge.

J. Robert Bird and J. W. Blue, Jr., were appointed to arrange with I. C. R. R. for reduced rate on limestone for fertilizer.

L. E. Crider and J. N. Boston were appointed a committee to solicit subscriptions to salary of J. Robert Bird, as Farm Demonstrator for the year, 1916.

The Committee on Farm Relations and Improvements are directed to make arrangements for a public meeting to hear addresses of Mr. Hughes and others on County Welfare and properly announce same.

It is hoped to greatly enlarge the membership by additions from all parts of the county. The committees named are workers, all of them, and their scope will cover the whole county and with them to lead and a pull together by the people everywhere, we can pull the county out of the rut and advance every interest and section. Next regular meeting will be in the Post Office Building, Tuesday, March 28th, 7:30 p. m. Everybody welcome.

NOTICE TO ALL THE CITIZENS

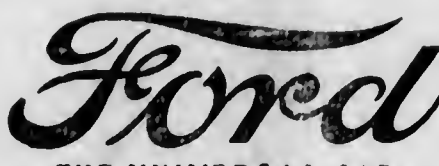

Dr. Geo. W. Stone Moves to the Jenkins Building.—Interesting Facts Concerning Location.

I have moved my optical office to the Record-Press building, on ground floor in room back of the Postal Telegraph office and S. M. Jenkins' office, where I will be glad to do your optical work for less money than you can get the best work done, on earth. You will find me in my office on Saturdays and Mondays until the first of August at greatly reduced prices. After that date every day for forty-two years.

Now it will be no trouble to find my office. There are five ways you can get in. You can come down through the basement and up the steps right into my office, or through the barber shop or through Miss Mary Cameron's telegraph office, or through S. M. Jenkins' office, or come up the little short street and turn square to the left, and don't run against that post, but come to the second door and there you are, in my office.

This is one of the handsomest buildings in Kentucky and more conveniences than any building in the United States. First we have a tailoring and pressing office run by Huffman and Cook. Now he don't cook, that is his name, and they clean and press your clothes while you wait. All you have to do is step down in the basement and shed your clothes. They will send a blind boy down and get them and return them by same boy in a few minutes.

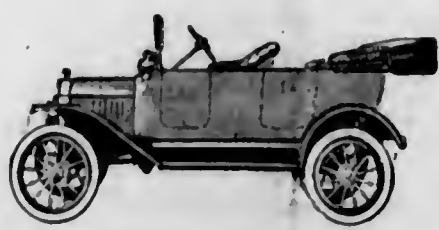

Next you step into the Barber

Ford
THE UNIVERSAL CAR

More than ONE MILLION now in use—500,000 more are to be sold this year. No other motor car in the entire world has such a wonderful record for service. This year's lowered prices mean the same Ford car of quality and reliability for less money—that's all. The Runabout is \$390; Touring Car \$440; Coupelet \$590; Town Car \$640; Sedan \$740, f. o. b. Detroit. On sale at

Phone 275. N. Main St. Marion, Ky.

We also handle Ford parts, made by the Ford Motor Company, for the Ford car, sold on the same guarantee as the Ford car.

Shop where there are three of the handsomest barbers I have ever seen, in one bunch. They will shave you so quick and easy you will be surprised. Also, in same shop, get your shoes shined so you will not need a mirror for several days to see yourself.

Then come through the door into my office and get fitted with a pair of glasses in pure gold frames, or rimless with gold mounting, for \$4.00 with center lenses, the best on earth. These lenses go with every frame or eye glass. I fit aluminum frames with same lenses for \$2.00. Also nice leather case goes with each pair.

Now when you get your glasses go right through the door and Miss Mary Cameron will sell you any paper or magazine you want for less than the paper costs they are printed on and from the same office you can send a telegram anywhere on earth.

And then through another door and behold S. M. Jenkins, the editor of The Crittenden Record-Press, with three or four of the best looking "Little Devils" you ever saw. You can advertise in this paper anything you want to sell or buy and the cost is nothing compared with results you get. Also all kinds of job work turned out by this force.

Now in same building, on second floor, we have a dentist, Dr.

BEAT IT, beat it, little car,
How I wonder what you are,
Climbing all the hills on high,
Passing all the others by.

As it passed the first man cursed,
While the second merely fussed;
But the last man said, they say,
It won't stop, it's a "Chevrolet."

F. W. Nunn. So if you happen to take the tooth ache he will take a delight in taking it out and will do it so easy you may want him to take them all out and make you some new ones.

Also if you get sick there are three fine doctors on this same floor, Drs. Cook, Perry and Moreland. Any of them can cure you in just a few moments. So remember we have speaking tube into all these offices.

Now how are you going to beat this for conveniences all in same building, where you will get courteous treatment from all.

Now don't forget there are five ways to get into my office. You will find me as said above on Saturdays and Mondays until August first. Anything in glass line you want for less money than glasses have ever been fit for in the county. Difficult cases solicited. Yours for prosperity and happiness.

A GLAD SURPRISE.

All work and no play makes Jack a dull boy. The same is true of Mary—in fact young and old of both sexes enjoy a little relaxation now and then. Accordingly, after a long and dreary winter of quilting, sewing, bazaar and other charitable work, Mrs. S. M. Jenkins in the kindness of her heart, entertained for the sewing circle of the First Presbyterian church, on last Thursday evening at her new home.

The house with its spacious halls, parlors and reception rooms is an ideal place for gatherings and the snow and gloom outside enhanced the coziness and light of the interior. Several contests were provided, but the most enjoyable one was the playing of old melodies on the Italian harp, which were quickly recognized by the guests, a few of whom were on the shady side of life, showed plainly there was music in their hearts and awakened memories that had lain dormant for years.

Refreshments, consisting of salad, creamed chicken, hot rolls, apricot Bavarian cream and coffee were served in the daint-

iest of hand-painted china, after which the health of the hostess and family was drunk in pure cold water from the well, near four hundred feet deep, on the premises. It is said this water is equal to the famous White Sulphur Springs in the mountains of West Virginia.

The only thing that marred the pleasure of the afternoon was the unavoidable absence of a few esteemed members. If the way to be happy is to do for others, and who can doubt it, our hostess deserves to be happy indeed.

A Guest.

Marion's New Marshall Has Birthday Dinner.

People around town were wondering Monday why the new City Marshall had some of our representative citizens in charge. He was taking them on a promenade when first observed in the early afternoon. Among the number were noted the following: M. Y. Nunn, G. H. Nunn, J. A. Chandler, T. H. Cochran, J. N. Boston, J. W. Weldon, V. O. Chandler and some others, who in company of the Marshall were seen coming in Shady Grove street, in the neighborhood of the Marion Mill. People will talk you know, and soon many tongues were wagging, and finally some of the nerviest ones ventured to question Mr. George Boston as to why such a "haul" had been made. One of the gentlemen spoke up immediately and said: "It was us who made the haul, and if you had seen that spread which Mrs. Boston prepared you would agree with us that it was indeed us who made the haul. George didn't have a thing to do with this. His wife surprised him by inviting in some friends for dinner, and oh my! what a dinner."

The new marshall (who by the way has one of the best wives on the earth) was 58 years old Monday, March 6th, hence the dinner party.

Subscriptions for Farm Demonstration.—Quick Work.

That the work of Mr. Bird is appreciated by our people is best evidenced by the quick response to Judge Blue's appeal last week. The subscriptions turned into the Record-Press last week, are as follows:

J. W. Blue, \$10.00; J. N. Boston, \$10.00; O. S. Denny, \$10.00; J. H. Orme, \$15.00; Sam Gugenheim, \$10.00; Geo. P. Roberts, \$5.00; W. H. Copher, \$5.00; Jesse Olive, \$5.00; Clarence Mayes, \$5.00; Geo. W. Stone, \$2.50; T. H. Cochran, \$10.00; Paris & Yandell, \$5.00; Jno. W. Wilson, \$5.00; C. C. Taylor, \$5.00; Geo. M. Crider, \$15.00; R. I. Nunn, \$5.00 and W. B. Yandell, \$10.00 Total \$132.50.

The Record-Press will publish your subscription next week. Send it in without delay to aid in a movement of greatest importance to the county.

Important Notice.

The high cost of all printer's stocks now, including the "white news" on which we print the Crittenden Record-Press necessitates an advance all along the line, but in order to give all subscribers a chance to pay up, and renew at the old price \$1.00, we will accept subscriptions at that price during this month. We cannot afford to mail out any more papers to parties in arrears and are now culling out all such names as rapidly as we can do the work.

DREAM OF PAST TO COME TRUE

Old Eddyville And Princeton Turnpike to be Remodeled in The Near Future.

Some people not over a half century of age remember well when the old stage-coach made its trips from Hopkinsville via Princeton and Eddyville to Smithland. This was in the latter 60s and early 70s. One of the places to change horses was at Frank Gardner's on the old pike five miles from Princeton. This pike was virtually abandoned after the railroad was built, but is now to be rehabilitated as stated in a telegram from Princeton, which says:

"The citizens living along the pike came before the fiscal court, Tuesday, with a proposition to raise \$1,750 for the purpose of aiding the county and State in macadamizing the old Eddyville pike, provided that the fiscal court would select that road and set aside an equal amount for its construction this year.

The fiscal court believing that it is the best policy to accept every dollar that is given to the county for building road, accepted the proposition, provided the money or its equivalent was deposited with the county treasurer before the first day of March, which is the last day for making application for State-aid this year.

So the citizens along this road got busy and in a very short time the money was subscribed and a bond for the payment of the same was deposited with the county clerk, R. L. Gresham. This money will be paid by the first of May, or when the fiscal court calls for it."

Former U. S. Senator, W. J. Deboe, County Clerk, L. E. Guess, T. J. Yandell and V. O. Chandler and Charles K. Lewis and Charlie Webb, attended the Republican convention in Louisville last week, as delegates from Crittenden county.

LEVIAS

(delayed from last week.)

Health is very good in our community as most everyone has recovered from la grippe.

Mr. and Mrs. J. L. Settles visited Sunday with J. H. Price and wife.

Mrs. Tom Dunning has had her mother's home remodeled and will make that her home this next summer. We are glad to have them with us.

Homer Settles is expected home from Wauchula, Fla., where he has been spending the winter.

Mr. and Mrs. Fred Love spent Sunday with Ernest Taylor and wife.

Anthony Threlkeld, of Hampton, was the guest of relatives here last week.

Mrs. Matt LaRue returned to her home near Deer Creek church Saturday. She was accompanied by her daughter, Irene Conyer, and family.

Miss Lemah Franklin spent Sunday with Miss Sallie Sullenger.

We almost forgot how cold it was outside as we sat around the good old open fireplace, filled with hickory wood, at the home of Mr. and Mrs. H. B. Watson, last Saturday, where Misses Lemah Franklin, Sallie Sullenger,

Bessie McClure, Gertrude Franklin, Leecie LaRue, Mrs. Lena Franklin, Mr. J. H. Price, wife and son, had assembled to enjoy Mary's thirteenth birthday. When dinner was announced, all were ready, and judging from the way we ate one would think we enjoyed eating, too. There was green beans, corn creamed potatoes, boiled ham, sausage, catsup, pickles, jellies, preserves, pies, cake, peaches and whipped cream besides many other good things to eat. Each one took a nice present and all wished Mary many more pleasant birthdays. One Who Was Present.

Saint Bernard Dogs

Can't Get Through Snow

Geneva, Switzerland, Mar. 7. —The monks and travelers are imprisoned on Mount Saint Bernard by 12 feet of snow, which is banked up to the lower win-

dows of the monastery. So deep is the snow that the famous Saint Bernard dogs are not able to make their way through it. Huge avalanches have interrupted telegraph and telephone communication with the monastery.

It has been snowing steadily for eight days and nights and the monks will be isolated for a month. They are plentifully supplied with food.

FRIGHTFUL MASSACRE, GERMANS CALL IT

Had Orders To Advance At Any Cost—French Claim Ruins of Douaumont Retaken

Paris, Mar. 7.—“A frightful massacre,” is how the German soldiers taken prisoners in the battle of Verdun describe the effect of the French artillery, machine gun and rifle fire. But the impetus of the assaulting forces was not diminished thereby during the first four days, because fresh troops were thrown into the battle unceasingly.

“Advance, no matter what the losses may be,” was the order given to the German troops before the attack. This was verified by documents found on one of the captured officers.

The most critical moment in the six days' action was when the Germans gained a footing in the entrenched camp by the capture of Fort Douaumont. The least hesitation on the part of the defenders would have been disastrous. The Germans redoubled their efforts to take advantage of any confusion, but the French immediately began a counter offensive. French infantry advanced at double-quick to the trumpet charge and leaped at the first rank of the Germans with irresistible fury. The clash was murderous on both sides. The thinned French ranks were not to be denied, but went on to the second German wing, while reinforcements were hurried to their support. The German lines wavered first west of Douaumont, then were driven

out of the ruins of the fort.

A cry of triumph went up all along the French line and the ardor of the counter-attack was redoubled. In the meantime an artillery duel, surpassing in intensity any previous action of the war, added to the carnage.

The battle now seems to have reached a critical point. The assaulting forces have recoiled in the direction of Douaumont, leaving the regiments which occupied the fort cut off and surrounded by French troops. The attacks upon the French left at Pepper Hill (Cote du Pouvre,) seemed to have completely failed. However, attacks made repeatedly with such heavy masses as the Germans are constantly bringing up, it is admitted by military authorities, are likely to make further gains, provided the officers are willing to pay the price in human life.

There is no exaggerated optimism to be found in military circles here, but the check of the Germans attacking in such formidable numbers is regarded by them as one of the greatest achievements of the war, and it is generally held that events have taken a turn quite favorable to the French arms in the last twenty-four hours.

A Letter From Oklahoma.

Checotah, Okla., March 6, '16. Mr. S. M. Jenkins.

Dear Editor:—

Enclosed find Post Office money order for one dollar, which pays my subscription to Feb. 16, 1917. This sure is a fine country and a good town to live in. We have one of the best water systems in the state and more natural gas than any other town in the state. We have our home equipped with city water, and it is heated and lighted with natural gas. They are building a large smelter plant here, which, when completed will cover several acres of ground. It is to be used for smelting lead and zinc. We have a glass factory almost completed and they will use gas for fuel. We sure are growing some. It is almost impossible to find lodging in town.

Yours very truly,
 Walter D. Terrv.

To Drive Out Malaria And Build Up The System Take The Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking, as the formula is printed on every label, showing it is Quinine and Iron in a tasteless form. The Quinine drives out malaria, the Iron builds up the system. 50 cents

HEALTH IS BASIS OF ALL CONTENT

The Half Sick Man or Woman Is A Stranger to Happiness.

Contentment is the very essence of happiness. But, to be contented, or happy, if you will, one must first have good health.

Our supreme toast to the one we admire is "Health, wealth and happiness," and the key-stone is health.

So many persons complain of being nervous and run down. This is the age of speed, we haven't time to care for ourselves. These run down men and women are not exactly sick, but just tired out, languid or maybe good-for-nothing most of the time. Their business, their home and their life suffer.

They need something to build them up, something to throw off these symptoms of a weakened, debilitated condition produced by either mental or physical overwork or by the abuse of a vital organ—more often the stomach than any other.

That something has been found. It is Tanlac. A tonic of rare properties, an appetizer and general invigorant that rids the system of congestion, tones up the stomach, overcoming indigestion, headaches, backaches, non-assimilation of food, nervousness, dizziness, ailments of kidneys and liver, and the complaints that are so common to the half sick, debilitated men and women of today.

Its effect is like lifting your spirits gently back to the level of the world's happiness that rests on health.

Tanlac may be obtained now in Marion, at J. H. Orme's Drug Store, and also in Blackford at A. T. Brown's, where its properties cheerfully are explained to all callers.

Good For Colds

Honey, Pine-Tar and Glycerine are recognized cold remedies. In Dr. Bell's Pine-Tar-Honey these are combined with other cough medicine in a pleasant syrup. Dr. Bell's Pine-Tar-Honey quickly stops your cough, checks your cold, soothes irritation of the throat. Excellent for young, adult and aged. It's one of the best cough syrups made. Formula on every bottle. You know just what you are taking and your doctor knows its good for coughs and colds. Insist on Dr. Bell's Pine-Tar-Honey. Only 25 cents at your Druggist.

Prisoners Forced to Dig Their Own Graves

Milan, March 7.—[Dispatches from Durazzo indicate] that the racial hatred between the Serbians and the Bulgarians has become greatly intensified.

The Bulgarians, it is reported, have committed horrible atrocities, not even respecting the Red Cross ambulances of the neutral states. Serbian wounded, it is said, have been flung out of hospitals and abandoned on deserted roads, where thousands have perished of starvation and cold.

Mohammedan irregulars, are reported to be ravaging villages and committing all kinds of cruelties. Fearful massacres have also taken place. The Serbians are being annihilated, it is said.

In some districts wholesale arrests were made by the Bulgarians, who forced the prisoners to dig their own graves before being shot, it is alleged. Only 500 prisoners remain alive.

David R. Francis Accepts Russian Ambassadorship.

Washington, March, 7.—David R. Francis, secretary of the interior under Cleveland's admin-

istration and former governor of Missouri, told President Wilson today he would accept the post of ambassador to Russia to succeed George T. Marye, who has resigned. His nomination will be sent to the senate as soon as inquiry is made of the Russian government as to whether he is acceptable. The President and Secretary Lansing attach unusual importance to the Petrograd embassy at the present time because of the questions growing out of the European war and the problem of inspecting the large detention camps of Russia.

Robert Hill Dead.

Robert Hill, a well-known citizen of Crittenden county, died at his home Feb. 21st, at the age of 71 years. Brother Hill was a devoted christian and true to his church, his membership being at Piney Fork Cumberland Presbyterian church.

He leaves a wife and eight children with a host of friends to mourn his loss. Funeral services were conducted at his home Feb. 22nd by the writer in the presence of a large congregation of friends and loved ones. He said the only thing he regretted was having to leave his much beloved companion behind, with whom he had lived for nearly fifty years.

Three Square Feet of Human Skin Grafted.

Des Moines, Ia., Mar. 7.—A remarkable skin grafting operation lasting five hours and requiring three square feet of human cuticle was performed here today.

The patient, Roy Adreon, as a result will live. He was conscious throughout the operation. His sister, his sister-in-law, his wife and three friends contributed the skin. Adreon was horribly burned last Saturday when he threw gasoline on a fire.

HOME FOLKS.

WHAT OUR NEIGHBORS SAY.

Corvinton, Ky.—"Because I was run down and debilitated I sought a spring tonic. I had rheumatism, too. Some friend recommended 'Golden Medical Discovery' so I began to use this medicine and I saw the gain almost at once. I used four bottles. It built me up wonderfully and the muscles of the arms were sore. I can do my work now comfortably and my health is much better." Mrs. SADIE RICHMOND, 28 West 15th St.

Pure blood is the greatest blessing mankind can have.

Millions of people need Dr. Pierce's Golden Medical Discovery for it puts the stomach, liver and bowels in fine condition; clears the skin of pimples, rash, blemishes and eczema; dissolves boils and carbuncles; makes nerves stronger and steadier and gives to pale, weak, rundown people the fullest measure of health and happiness.

Dr. Pierce's Golden Medical Discovery, free from alcohol or narcotics, banishes from the blood poison and impure matter, and carries them out, as it does all impurities, through the liver, bowels, kidneys and skin.

If you have indigestion, sluggish liver, backache over the kidneys, nasal or other catarrh, unsteady nerves or unsightly skin, get Dr. Pierce's Golden Medical Discovery to-day and start at once to replace your impure blood with the kind that puls energy and ambition into you and brings back youth and vigorous action.

WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body.

In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability and unless corrected, leads straight to a breakdown.

To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutriment gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol.

Drops Nitroglycerin Cans.

Charleston, W. Va., March 7.—S. Roberts, of Marietta, Ohio slipped and fell, while carrying two cans of nitroglycerine at St. Albans, 12 miles from here, late today and was blown to pieces by the explosion that followed. The detonation was heard in Charleston. No one else was injured as far as can be learned. Roberts was an oil well shooter.

HUSBAND SAVED HIS WIFE

Stopped Most Terrible Suffering by Getting Her Lydia E. Pinkham's Vegetable Compound.

Denison, Texas.—"After my little girl was born two years ago I began suffering with female trouble and could hardly do my work. I was very nervous but just kept dragging on until last summer when I got where I could not do my work. I would have a chill every day and hot flashes and dizzy spells and my head would almost burst. I got where I was almost a walking skeleton and life was a burden to me until one day my husband's step-sister told my husband if he did not do something for me I would not last long and told him to get your medicine. So he got Lydia E. Pinkham's Vegetable Compound for me, and after taking the first three doses I began to improve. I continued its use, and I have never had any female trouble since. I feel that I owe my life to you and your remedies. They did for me what doctors could not do and I will always praise it wherever I go."—Mrs. G. O. LOWERY, 419 W. Monterey Street, Denison, Texas.

If you are suffering from any form of female ill, get a bottle of Lydia E. Pinkham's Vegetable Compound, and commence the treatment without delay.

Orpet Bound Over.

Lake Forest, Ill., March 7.—Will H. Orpet, a University of Wisconsin student, charged with the murder of Marion Frances Lambert, a Lake Forest High

ELEVEN GERMAN SHIPS TO BECOME RAIDERS

Interned in Canary Islands, Have Secretly Armed and Coaled For Dash to Sea.

Mobile, Ala., Mar. 7.—Eleven German steamers, laid up in the Canary Island ports, have been secretly armed for commerce raiding and are preparing to make a dash for the open sea, according to a statement made here today by Capt. F. E. Magune of the American schooner Edgar W. Murdock, who says he delivered 2,100 tons of coal to German agents in Tenerife and saw it loaded into the bunkers of the interned German vessels. The Murdock is in port here.

Capt. Magune refused to give the name of the agents who chartered his schooner to transport the cargo of coal from Norfolk. The coal was consigned, he said, to a Spaniard employed by a German coal company in Santa Cruz Tenerife. It was transferred to lighters and immediately taken alongside the German ships and loaded into bunkers.

The heart of the prudent getteth knowledge; and the ear of the wise seeketh knowledge.—Proverbs 18:15.

A wise man will hear and will increase learning; and a man of understanding shall attain unto wise counsel.—Pro. 1:15.

A teamster brought in 364 feet of lumber to town one day last week with a four horse team and it was a hard pull. With a turn-pike he could have brought three times as much with one-half the team and one-fourth the pull.

It is the duty of everyone to be happy. You have no right to go around in this bright and beautiful world and look sour and sad.

Robt. Louis Stevenson said once: "There is no duty we so much underrate as the duty of being happy."

With Union voting (and they are sure to do) \$450,000 in bonds to build highways what are we going to do? Is there a man in Crittenden county who wants to see our tax (which we already pay) go to the rich county of Union to help her build highways when Crittenden needs the help herself?

An election is to be called to give the sovereign voters of Crittenden county an opportunity to vote on the question of issuing bonds to the amount of \$175,000. The date of the call, which must conform to the law in all respects, is not yet decided on, but will be published later. It is claimed by the advocates of good roads that the State aid will enable Crittenden county to build her highways and retire these bonds without increasing the burdens now on the people, but on the contrary greatly benefit them. Let's look into all this and be sure we are right then go ahead.

When it comes to questions like those of rural credits, the extension of the postal system, the development of agriculture, or even the annual seed distribution that is now in full swing, peculiar interest surrounds the Washington situation. If people will insist in living in large cities, ought they not to take the consequences, and smile when everything goes dead wrong? The "back to the farm movement" deserves to have a boom, and any effort in Washington to coax people back to the soil, where nature has provided broad acres that need men and women to develop them, has many converts and supporters.

On next Monday, March 13th, 1916, being County Court day, all the citizens of Crittenden county are invited to appear at the Court House at 1 p. m., for the purpose of hearing the views of others and having heart to heart talks on the good roads propositions. At present, and under present condition, we are the worse taxed people on earth. Any people who flounder in mud and mire are paying the most expensive tax known to civilization. There is a way out of it. Instead of sending our money out of the county as we have been doing for several years, let's keep it at home and get it duplicated by the state and improve our roads and you will see old Crittenden blossom like a rose. This is the farmer's move. It is for their uplift and when you benefit the farming class you benefit everybody in the county, rich and poor alike.

WANT GOOD ROADS

To Hold A Bond Election at Princeton

Caldwell Circulates Petition Asking Vote on Bonds.

Princeton, Ky., March 6.—On motion of Magistrate D. C. Cantrell, the Caldwell Fiscal Court adopted resolutions to the effect that public interest demands the improvement and construction of the Princeton and Eddyville pike for a distance of two and one-half miles beginning at the city limits.

Caldwell county has set aside \$3,500 for the maintenance and building of public roads for this year, and a petition has been sent to State Road Commissioner asking that the State appropriate a like amount.

Two miles of road are now under construction under the State-aid law, out of last year's appropriation, but as this is a slow way of obtaining good roads a petition will be circulated within the next few days asking the County Judge to call an election for the purpose of voting bonds to macadamize the county seat roads of Caldwell county.

MARCH TERM

The March term of the Caldwell Circuit Court will convene next Monday. This will be the first term of circuit court held in Caldwell county since the election of Judge Carl Henderson, Commonwealth's Attorney, Chas. Ferguson and Circuit Court Clerk W. J. Miller, who succeed Judge J. F. Gordon, John L. Grayot and W. D. Dawson.

The docket consists of forty common law cases, eighty-seven equity cases, six new divorce cases, and forty-nine Commonwealth cases.

The most important cases to be tried are the \$25,000 damage suit of Mrs. W. D. Pierce against the I. C. R. R., and the \$8,000 damage suit of S. P. Pool against the city of Princeton.

The case of Gus Lacy, charged with the murder of Carl Coleman n I. C. R. R. yards last spring is set for the seventh day of the court.—Princeton Leader.

When you pay your bills, give your grocer first money.

He supplies you with the most necessary things in life—food.

The most important thing in the world is to get something to eat.

If you must put off paying anyone, therefore, let it be anyone BUT the grocer.

He is not wealthy. He seldom has a surplus in the bank. His

money is all invested in merchandise and accounts.

He buys of wholesale houses who sell on stated terms and have experts who are paid to "get the money" when due.

He can't pay them with excuses. He cannot afford collection expenses.

He should not be expected to give credit, show him equal courtesy by paying him promptly

He has no security. What you buy of him is soon consumed and he cannot get it back. He trusts you on your

When And How to Work The Roads.

Marion, Ky., Mar. 4th, 1916.

Dear Marshall:—

As I promised I will tell you and the readers of the dear old Record-Press, when and how to work some of our roads.

All twelve months of the year is a good time to work on the roads, when some parts are too muddy for work, other parts are in the best of condition for work.

Take rocky hills and bluffs, when the ground is muddy, it is soft then, the boulders will easily yield to the pry of the crowbar, then there is time saved as one man can take out the boulders and one can beat them up with a sledge where, if the ground is hard, it takes both men to get out the boulders and takes twice the man labor in dry times

or in soft ground it saves one half of the labor or time, then get all the rock out of the fence corners and off of the banks that have been thrown there by the road hands, and crush them with a sledge and see how much of a start you have toward building a rock road.

But some one says, "Where is the Water Going?"

Move not less than six feet from the center of the road each way and get a good ditch there, take the dirt or rock you get out of the ditch and cover the rock you have beaten up and just a little traveling will bury the top ones in the crevices of the bottom ones and give a smooth solid surface. By doing this you will get not less than two feet of the road covered with rock from six to eight inches thick, and then in six years you will have twelve feet of surface covered with rock from six to eight inches thick, that by giving just a little time to fixing the places that begin to give way, we have our roads, say 50 per cent better than we have them now, and we don't have those bonds nor any more expense, not one cent of money above what we are already spending has been used, then take the money that is spent for teams that are standing still and not giving any service, and put it together and in the six years you have enough saved to improve our roads where there is no rock and in a course of eighteen years, we have a rock surface twelve inches thick with six inches allowed for wear and that twelve feet wide or from four to six feet wider than we have now. Then the money you save—that is paid for teams standing still—will be enough to hire all the needed rock hauled from some bluff or nearby branch or creek, to fix our roads where the rock must be hauled.

Now there is no way of telling just how much this will amount to, but I contend that one half of the time is spent in the shade standing still. If that be true the purse will be just half of the amount spent for teams, which will surprise many of us. Then the time wasted in sitting on the banks arguing politics or telling vulgar tales, or talking about some neighbor, will be enough to beat those rock up and to dig the much necessary ditches, and then all our roads will be fifty per cent better. For fear I am taking up too much space, I close hoping someday to see at least some of our roads good.

General's Widow Dies.

Mt. Sterling, Ky., March 4.—Mrs. Henrietta Williams, one the state's best known women and widow of Gen. John S. ("Cerro Gordo") Williams, died at her home in this city last Thursday after a short illness of heart trouble caused by infirmities of age. Mrs. Williams was 88 years old. She was a native of Bourbon county and was twice married. Two children, Mrs. Ida Hamilton Stoner and Col. A. W. Hamilton, both of this county, children of her first marriage, survive.

Committees were named to arrange for entertainment of delegates.

Reports from Wolf Island, about ten miles above Hickman, the largest island in the Mississippi River, are that the recent flood did much damage. The water washed great holes in the fields, covering some with several feet of white sand and left the uplands in bad shape. Belmont, Mo., a few miles above the island, also suffered from the ice, which swept in over the town and is said to have done great damage to the houses.

Mrs. Laura O'Brien, 63 years old, of Henderson, has been notified that she will receive \$52,000 from the estate of Robert H. O'Brien, who died in Ireland. Mrs. O'Brien has been employed for twenty years as a cook and notwithstanding her advanced age she has been at her post of duty every day. When notified of her good fortune, she was so surprised that she left her work in the kitchen of a boarding house, and said she would take a rest, the first in over twenty years.

According to reports, the eight counties of Clark, Anderson, Franklin, Woodford, Jessamine, Scott, Fayette and Harrison had 150 distilleries thirty-six years ago and made 6,300,000 gallons of whiskey every year. This at half a gill a dram, was 403,200,000 drinks or enough for over eight drinks for every man, woman and child in the United States at that time. Today the whole United States makes only 62 1/2 drinks per head, which is only four times what eight Kentucky counties made thirty-six years ago.

The Midland trail, a highway to extend from San Francisco to Washington, D. C., is the latest piece of modern roadway to cross the continent, and Kentucky will be traversed by this new highway. A communication from the officials of the Executive Committee named by the promoters has been received by the Winchester Commercial Club, with a map, showing the states, cities and towns that will be traversed by the new road. Leaving San Francisco, it will come to Salt Lake City, thence to Denver, Pueblo, Kansas City, St. Louis, Louisville, Lexington, Winchester, Ashland, Huntington, Charleston, Richmond and on to Washington. The distance is 2,930 miles. From St. Louis to Louisville it will run via Vincennes and cross the river at New Albany.

GOOD ROADS PAY

Economic Benefits Easily Recognized—
Improve Social Conditions in
Rural Sections

(Prepared by the U S Department of Agriculture)

Use of Split-Log Drag, Arlington Farm, Virginia.

It is estimated that the people of this country annually waste \$250,000,000 because of bad roads. Investigations have shown that the average cost of hauling on roads in the United States is 23 cents per ton per mile. It costs the farmer more to haul a bushel of wheat 94 miles, the average distance from farm to shipping point, than it ordinarily costs to ship it from New York to Liverpool. In France, England and Germany, consular reports show instances where the cost of hauling agricultural products is as low as 10 cents per ton per mile. If the farmers of this country could reduce the cost of hauling to 13 cents per ton mile, they would save about \$250,000,000 which now represents their "mud tax."

The benefits of good roads are numerous and far-reaching. They are a powerful factor in promoting better farm conditions throughout the country. They make the farmer more independent of seasonal and weather conditions and permit him to take better advantage of favorable market and prices. They increase the value of his farm and so enhance his material wealth. They promote better agricultural methods and are necessary for an efficient rural delivery and parcel post. They have a profound effect on our country schools and the home life on the farm. There are indeed few investments which the farmer can

This is due partly to the decreased cost of hauling and partly to the fact that a good road makes the farm a more desirable place to live.

Moreover, improved roads have a market effect on both the amount and character of production. For example, around the typical small town, when the roads are not improved, truck gardening, dairying and other forms of intensive farming are confined to a small zone, immediately surrounding the town, which is usually scarcely sufficient to supply the local demand. Without good roads the production of perishable goods at any considerable distance from market or shipping point is too hazardous an undertaking to be profitable. With good roads the produce can be brought to market with regularity and in prime condition, two essentials in successful marketing.

The parcel post makes possible direct marketing between producer and consumer regardless of distance. But here again the public roads play no small part, affecting not only possible extensions of the system, but also the cost of its operation.

The condition of our rural schools is closely connected with the condition of the public roads. While it is true that various factors contribute to increase or decrease the attendance at schools in given sections of the

make from which he is so sure to receive generous dividends as from good roads.

A reduction in the cost of hauling is one of the most immediate benefits of a good road. A striking instance of this is shown by investigations conducted in Virginia where the average distance from the farm to the market is 7.5-10 miles, and the average load for the staple crops is about one ton. Assuming that the wages of a two-horse team and driver are \$3.00 per day, it costs the farmer in Virginia an average of 26 cents per ton mile to market his crops. If the roads were graded and improved with a surfacing suitable for the particular road and region, the load could be increased at least 50 per cent and the round trip made in the same or less time without any additional hardship on the team. This would represent a clear saving of \$1.50 per day to each farmer in the state for every day in the year in which he was engaged in hauling to or from the market.

The increase in land values is another benefit that is noticeable wherever road improvement takes place.

country, it is a well-known fact that in our rural schools the attendance almost invariably shows a marked decrease during the periods when the roads are bad. Another point worthy of consideration is that the one-room school is being supplanted by larger consolidated schools throughout those portions of the country where conditions make it practicable to convey children to school at the public expense. Roads passable at all times are most necessary for successful school consolidation. There is abundant evidence to prove that any extensive road improvement is followed by better schools and better school attendance. In some of these schools, advanced courses have been introduced, and it has been possible to employ teachers having special qualifications and training.

With good roads, some of the advantages of the city can be brought to the country. Social gatherings become more frequent, and improved conditions exert a decided effect on the principal objections to rural community—loneliness and isolation.

The Greatest Merchant in the World

In the March American Magazine is an account of James A. Farrell, the greatest trader on earth—bound to be one of the leaders in Uncle Sam's new era of the world domination of industry. "As president of the United States Steel Corporation" we are told, "he has fleets carrying \$100,000,000 worth of steel products across the seven seas to the ends of the earth. He is not the 'promoting' type at all. He is a master salesman, with wonderful knowledge of his goods and the markets."

"Farrell has girdled the globe with American steel. He has nearly 300 agencies in sixty countries, and no island of the South Seas is too far distant for his fleets. He seeks no publicity. He is never interviewed."

THE perfection of the American Beauty Rose is expressed in the high quality of the "American Beauty" Electric Heating Devices, in so far as man can approach Nature's perfect workmanship.

The Devices of the "American" Brand can be attached to the ordinary electric lamp socket and are instantly ready to give service. They make many household duties pleasant, easy and inexpensive.

Migratory Bird Law

Continues In Force

A misleading statement has recently become current in newspapers of the Mississippi Valley and elsewhere, to the effect that the Department of Agriculture has suspended the enforcement of the Federal regulations under the Migratory Bird Law and by this means has enabled sportsmen, under State laws, to shoot wild fowl the coming spring.

Under the Federal regulations as they now stand, the season on migratory wild fowl is closed until next autumn throughout the United States. Federal inspectors and wardens are required, and others interested in the protection of wild fowl are requested, to report to the Department of Agriculture all cases of violations of the regulations, in order that proper action may be taken.

The Department of Agriculture has no power to suspend the law or to pardon violations of the regulations. Doubtless the erroneous impression, upon which

the newspaper statements are based, has grown of the pendency of litigation involving the constitutionality of the Act of Congress, approved March 4, 1913, under which the regulations were promulgated. The lower Federal courts disagreed as to the validity of the statute and the issue was carried to the Supreme Court of the United States. The case was argued in the Supreme Court in October, 1915, but has not been decided. Following the lower court decisions, Congress appropriated money for the purpose of continuing the enforcement of the law. The Department of Agriculture is bound to report to the Department of Justice violations of the regulations if the Supreme Court should declare the law constitutional. All persons should, therefore, be warned of the danger they incur from failure to abide by the regulations.

GO TO CHURCH And You'll Win In Great Battle of Life

GO TO CHURCH that you may win in the great battle of life.

The greatest battlefield on which a man ever fought is within himself. The greatest defeats are there and the mightiest victories. Victory on the field of one's own heart means victory elsewhere. The greatest mastery is self mastery. Every true man, every true woman, recognizes this. Sin first stole our self mastery away. IT MUST BE CHARGED AND FLANKED AND GRIPPED. What the particular enemy is each individual knows, openly or secretly. What is it, O woman—back biting, gossip, mischief making, selfishness? You, O man—blasphemy, temper, appetite, passion?

HAVE YOU GONE DOWN TO DEFEAT AGAIN AND AGAIN—SEEN YOUR COLORS ORAG AT THE VERY TIME YOU SHOULD HAVE BEEN MOST EASILY THE TRIUMPHANT VICTOR? THAT'S GOOD. THEN YOU KNOW THE WEAK POINT IN YOUR LINE. THAT'S WHERE THE HOTTEST CONFLICT IS TO BE FOUGHT. THERE'S THE KEY TO THE WHOLE SITUATION. YOU'LL HAVE TO MASS YOUR BATTERIES THERE. TEMPTATION TO DISHONESTY? FIGHT IT. "ARE THOSE GOODS ALL WOOL?" SAID A WOMAN TO A LITTLE SHOPKEEPER. "THEY WERE, MADAM, BEFORE THE REVIVALS AT OUR CHURCH. THEY ARE NOT NOW." UNCLEANNESS, COWARDICE AND DISCOURAGEMENT ARE THE SOLDIER'S WEAKEST POINTS. FIND OUT THAT POINT AND OFFEND IT WITH ALL YOUR STRENGTH. VICTORY CONSISTS IN HOLDING ON A MOMENT LONGER.

If you want to conquer your great vice you must GO TO CHURCH. It is in church and in church alone that you will find the weapons with which to successfully wage the fight. The GO TO CHURCH movement is sweeping onward. It is irresistible. Join it now. Do not delay. GO TO CHURCH next Sunday. You will see your neighbors there. You'll be glad to see them. They'll be glad to see you.

Put on your armor.
GO TO CHURCH next Sunday.

COURT EDICT AS TO RHEUMATISM

Judge Barhorst Testifies Rheuma Has Given Permanent Relief to Many.

No matter how many so-called remedies for rheumatism you have tried, do not be skeptical about the wonderful curative power of Rheuma.

There is no other preparation like Rheuma. It goes to work so quickly as to leave no doubt in your mind of the ultimate successful and permanent relief. One dose daily acts on the diseased kidneys, blood and joints more readily than any other known remedy. It cleans out the "human sewers" and thus purifies the entire system.

"I, John Barhorst, Justice of the Peace of McLean Township, Ft. Lorramie, Ohio, do certify that I was cured of a very bad case of rheumatism by using two bottles of Rheuma. It is now two years since I used the remedy, and I am still as well as ever. Previous to using Rheuma I was a cripple, walking on crutches. I have advised Rheuma to at least a dozen persons and each one speaks as highly of it as I." You can secure a bottle of Rheuma for only 50 cents of James H. Orme or any druggist.

One grateful user writes: "Sloan's Liniment is worth its weight in gold." Keep a bottle on hand, use it against all Soreness, Neuralgia and Bruises. Kills pain. 25c at your Druggist.

Solid Train of Fifty

Carloads of Salmon.

Seattle, Wash., March 6.—A solid train of fifty carloads of Puget Sound and Alaska salmon with banners on the sides, departed for New York over the Union Pacific system. There are 2,400,000 cans of salmon in the

shipment. Much of the fish will be shipped to Europe.

"Cured"

Mrs. Jay McGee, of Stephenville, Texas, writes: "For nine (9) years, I suffered with womanly trouble. I had terrible headaches, and pains in my back, etc. It seemed as if I would die, I suffered so. At last, I decided to try Cardui, the woman's tonic, and it helped me right away. The full treatment not only helped me, but it cured me."

TAKE

Cardui
The Woman's Tonic

Cardui helps women in time of greatest need, because it contains ingredients which act specifically, yet gently, on the weakened womanly organs. So, if you feel discouraged, blue, out-of-sorts, unable to do your household work, on account of your condition, stop worrying and give Cardui a trial. It has helped thousands of women,—why not you? Try Cardui. E-71

FOR BRONCHITIS, WHOOPING COUGH, CROUP, COUGHS AND COLDS

Make the Best Remedy at Home—128 Teaspoonsful for 50 cents.

If everything was sold in as liberal and fair a manner as the below named drug-gists are selling Schiffmann's New Concentrated Expectant, absolutely no cause for complaint or dissatisfaction could possibly arise from anyone. These druggists say—"Buy a bottle of this remedy and try it for Bronchitis, Whooping Cough, Severe Cough, Croup or any Bronchial Affection, and we will return your money, just the same as we do with Schiffmann's famous Asthmador. If it does not give satisfaction, or if not found the best remedy ever used for any of these complaints." Why not take advantage of this guarantee and try this medicine, and get your money back, rather than buying another purely on the exaggerated claims of its manufacturer or on the strength of testimonials from others and run the chance of getting something worthless and also wasting your money?

In buying this remedy, besides securing an absolute guarantee of its efficiency from these druggists, you also get about eight times as much medicine as you would in buying most any of the old-fashioned, ready-made kinds, which average from 20 to 32 teaspoonsful, because 50c worth makes a whole pint (128 teaspoonsful) when mixed at home with simply one pint of sugar and one-half pint of water. This remedy positively does not contain chloroform, opium, morphine or any other narcotic. It is pleasant to take and children are fond of it. You will be the sole judge, and under this positive guarantee absolutely no risk is run in buying this remedy. Druggists everywhere are authorized to sell it under the same guarantee as Schiffmann's famous Asthmador or "Money Back" if not perfectly satisfactory. R. J. Schiffmann, Proprietor, Saint Paul, Minn. Guaranteed here by JAS. H. ORME Marion, Ky.

PROMINENT RAILROAD MAN CURED OF STOMACH TROUBLE

Mr. T. B. Whit, city passenger agent of the Pennsylvania Lines, has his office in the Insurance Exchange Building, Chicago.

He was for some time a great sufferer from stomach trouble. After trying various medicines and prescriptions without results, he resolved to see what Mayr's Wonderful Remedy would do for him. This is what he wrote to Mr. Mayr after taking several bottles:

"I wish to let you know of the good I derived from your Wonderful Remedy, and would have done so ere this but was waiting to see if there would be any return of the evil I suffered before using your remedy. But up to the present time I am feeling better than I have for a great many years.

"I can fully recommend this remedy and will always do so, and will personally explain to any one who will apply to me my condition before taking your remedy."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get ONE bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

School News

Friday afternoon, Mar. 3rd, at 2 o'clock, the girls of the Sophomore class made up as dorkies, entertained the members of the Seimantian Society in the School Auditorium with a "corn shuck-in."

"Sambo," our young songster proved himself a great favorite and his jig was a decided hit.

"Aunt Sis Dinah" and her two daughters "Fertilizer" and "Susane Matilda Jane Hopkins" (the chicken thief) were very greatly admired.

"Brudder Brown" never delivered his favorite sermon "The Prodigal Son" with more force than on this occasion.

"Rastus" the widower succeeded in winning the love of the young "Iwilla," which caused her twin sister "Vanilla" great sorrow.

"Thomas Jefferson" gave the corn to the company to be shucked.

"Mr. and Mrs. Johnsin" were very hospitable to their company and served them pie after they had finished their work.

"Uncle Pete" made their hearts happy when he fiddled for them to dance the old square dance which was given in honor of the engaged "Rastus" and "Iwilla."

The Juniors will entertain the Society next Friday.

Manthanipian Society.

The Manthanipian Literary Society was called to order by President McConnell, March the third. The roll call was answered with current events, bringing before the society many interest-

ing bits of both European and American affairs.

The second section entertained the society. The first number on the program was an original oration by Frank Coker, which was well delivered and showed the merits of Mr. Coker as a speaker. Floyd Frazier delivered a well prepared and enthusiastic original oration on "Our Own U. S.," which received the praise and support of every boy in the society. The third part of the program, a humorous reading was admirably rendered by Arthur Lynch.

On account of the difficulty of securing a suitable subject for debating, the customary debate was omitted. An interesting speech on the subject of fish was delivered by Herman Boucher. William Owen Moore did the honors of the day in an original oration entitled: "Girls of Kentucky." One of the best features of the day was the joke paper read by Ellis Boaz, one of the editors.

Mr. Frank Coker, the society critic, did his duty and showed his impartiality by thoroughly criticizing his own as well as the section's work. He complimented the section highly on their work and encouraged variety in the programs.
